

FOR IMMEDIATE RELEASE

**Transmission Conversion Crossmember for 1998-2002 F-Bodies
TC340 - \$149.95**

Properly mount your 1998-2002 F-Body transmission with a transmission conversion crossmember from BMR Suspension. Factory crossmembers are manufactured from stamped steel and can lack durability. Manufactured from DOM steel tubing and 1/8" laser-cut steel plate, our 1998-2002 F-Body Crossmembers offer uncompromised strength and stability while supporting the transmission. The BMR Transmission Conversion Crossmember (TC340) easily replaces the factory crossmember and supports the high-output power of your vehicle. The TC340 helps to support the manual T-56 transmissions. BMR has designed the TC340 for drag racing, street performance, and road race applications. Installation time is about 1 hour. Available in black hammertone or red powdercoat for long lasting good looks. Proudly made in the U.S.A.
