

FOR IMMEDIATE RELEASE

BMR Suspension Front Bumper Support for 2015-2023 S550 Mustangs

BSF761 - \$129.95

Reduce front end weight and improve the performance of your S550 Mustang with a Front Bumper Support from BMR Suspension! Factory bumper supports add a ton of unnecessary weight to your vehicle when it comes to racing. Manufactured from 1.25-inch Chromoly steel tubing, BMR's Front Bumper Support (BSF761) shaves weight off the front of your Mustang for racing purposes. The BSF761 provides additional clearance to mount intercoolers and heat exchangers behind the front bumper. BMR's BSF761 features a 100% bolt-on design to promote a quick and efficient installation process. For those looking for a lightweight alternative to the factory bumper support for racing applications, the BSF761 is the support for you.

BMR Suspension has designed the BSF761 for drag racing and road racing applications. The BSF761 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 1-2 hours. As with all BMR Suspension products, the BSF761 is proudly designed and made in the USA!

To preview all of BMR's high-performance suspension parts, please visit www.bmrsuspension.com, email sales@bmrsuspension.com, or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
