

FOR IMMEDIATE RELEASE

BMR Suspension Front Bumper Support for 2024-Current S650 Mustangs

BSF770 - \$119.95

Reduce front end weight and improve the performance of your S650 Mustang with a Front Bumper Support from BMR Suspension! Factory bumper supports add a ton of unnecessary weight to your performance vehicle. Manufactured from 1.25-inch Chromoly steel tubing, BMR's Front Bumper Support (BSF770) shaves 4.1 pounds off the front end of your Mustang. The BSF770 includes tabs that allow you to retain the radiator shutter assembly while removing other bulky front-end components. BMR's BSF770 features a 100% bolt-on design and weighs only 1.3 pounds, serving as a great lightweight alternative to the factory bumper support.

BMR Suspension has designed the BSF770 for street performance, drag racing, and road racing applications. The BSF770 is available in red or black hammertone powder coat for long lasting good looks, and installation takes about 1-2 hours. As with all BMR Suspension products, the BSF770 is proudly designed and manufactured in the USA!

To preview all of BMR's high-performance suspension parts, please visit www.bmrsuspension.com, email sales@bmrsuspension.com, or contact them at BMR Suspension, 1033 Pine Chase Avenue, Lakeland, FL 33815, 813-986-9302, Fax: 813-986-8055.
