

FOR IMMEDIATE RELEASE

**BMR K-Member, LT1 Motor Mounts, Pinto Rack Mounts for 93-02 F-Body  
KM346 - \$619.95**

Reduce weight, increase front end rigidity, and add clearance for large-tube headers and turbo kits on your 93-02 F-Body with a Tubular K-member from BMR Suspension. BMR's Tubular K-Member is designed to provide a lightweight alternative to the heavy and bulky factory K-member. Manufactured from 1-5/8-inch x 0.120 wall and 1-1/4-inch x 0.095 wall DOM tubing, BMR's K-member (KM346) gives you the ultimate in strength, while remaining lightweight. The KM346 features integrated frame stands that replace the factory cast iron frame stands, and designed specifically for use with the LT1 engine platform and a Pinto manual rack. BMR Suspension designed the KM346 to work well for street performance, drag race, and road race applications. Installation time is only 4-5 hours. Available in black hammertone or red powdercoat for long-lasting good looks. Proudly made in the U.S.A.
