

FOR IMMEDIATE RELEASE

**BMR Suspension Rear Shock Mounts for 2024-Current S650 Mustangs**

**SM770 - \$159.95**

Strengthen the rear shock mounting locations on your S650 Mustang with Rear Shock Mounts from BMR Suspension! Factory mounts can easily fail when driving your Mustang under performance conditions, leading to handling and ride control issues. Manufactured from heavy-duty steel plate, BMR's Rear Shock Mounts (SM770) strengthen the rear shock mounting locations on your S650 Mustang. BMR's SM770 includes Grade 8 hardware and Teflon-lined rod ends for the ultimate in strength and durability. The SM770 also utilizes O-Rings to minimize any NVH increases during normal and performance driving.

BMR Suspension has designed the SM770 for street performance, drag racing, and road racing applications. The SM770 is available in red or black hammertone powder coat for long lasting good looks, and installation time is about 1-2 hours. As with all BMR Suspension products, the SM770 is proudly designed and manufactured in the USA!
